to record their names upon this resolution) moved to lay it on the table, giving notice that he should vote against the motion. Much palpitation, shuffling and dodging of votes ensued. The motion was rejected; nays 119 to yeas 18. The previous question being refused a second (the party voting now,-as only admissible by rule upon this question,-without a record of names,) Mr Brown of Ia. moved a substitute amendment purporting to be a declaration of Mr. Clay at the extra session (but which, from an examination of the matter, is pronounced by those well acquainted, a forgery of words, as it notoriously is an entire perversion of the statements of Mr. C.) as follows: "Carry out the principles of the Compromise Act. Look to revenue alone for the support of Government. Do not raise the question of protection, which I hoped had been put to rest. There is no necessity for protection."

Mr. Holmes answered in the affirmative; but subsequently stating that he did not believe this the sentiment of Mr. Clay and that he wished to do no injustice even to his opponents, asked to be excused from voting. Mr. E. J. Morris and others challenged this as not being a correct report of Mr. Clay's words.

The amendment was rejected; Yeas 82, Nays 84; and the question recurring on the original Resolution under the operation of the Previous Locos to evade a vote. After several motions, and two votes by Yeas and Nays, adjournment was finally effected-thus throwing over the question, which, without doubt, the majority will not permit again to be reached.

In Senate, petitions against the modification of the Tariff were presented by Mr. WRIGHT, from Syracuse; and by Mr. TALLMADGE, from same, and from Utica, New-York and Hudson. The resolution of Mr. BAGBY, for the appoint-

Things in Philadelphia. Correspondence of The Tribune. FHILADELPHIA, March 26-P. M.

THE TARIFF MEETING OF YESTERDAY .- A few THE TARTET MEETING OF YESTERDAY.—A few minutes before 5 o'clock last evening, the immense concourse of people became so great at the Chinese Museum, that it was found necessary to adjourn to Independence Square in order to accommodate those who could not obtain admittance, or hear the remarks of those who were addressing the multitude within. Thousands marched in procession to the Square, where Matthew L. Bevan, Esq. was called upon to preside—The me-ting was ably and eloquently addressed by M. Chambers, an extensive iron manufacturer, Judge Conrad, Joseph R. Chandler, William B. Reid, Esq. and others, when it adjourned with cheer after cheer for Henry Clay and the American Tarder of 1812. It adjourned with cheer after cheer for HENRY CLAY and the AMERICAN TARIFF OF 1812.

It was a great day, and one which will long be remembered with pleasure by the mechanic and manufacturer, in particular, of Philadelphia and her adjoining Districts. From Kensington, where the blessings of the Tariff are felt to be appreciated, not less than 1000 of her honest and hardy sons of toil secompanied by a splendid band of music, came nobly forth to the rescue of the country, and expressed their burning indignation at the attempt now making by the Loco-Pocos to effect a Repeal of the Tariff in language not to be mistaken.

FATAL ACCIDENT.—James Wilson, one of the agents of Messrs. Leech & Co.'s Line, on the Columbia Railroad, met with an awful death vesterday afternoon near
Parkersburg. He fell from the top of the foremost car in a barden train, upon the Railroad, the whole number of cars passing over him, nearly severing his legs and one of his arms
from the body. He died instantly.

THE REPEALERS—A Mass Meeting of the Philadelahi. Record Accountion will be held this exeming at the

delphia Repeal Association will be held this evening at the Chinese Museum, on which occasion an Address will be delivered by Robert Tyler, Esq. the rewly elected President. FIRE .- Between 10 and 11 o'clock this morning a fire occurred in Fourth street, below Germin, which de-stroyed a large frame carpenter's shop and double two-story frame dwelling. Loss about \$1,000. Several attempts at riot-ing manifested themselves, but nothing serious occurred.

INFAMOUS OUTRAGE .- At an early hour this morning, a party of the members of the Fairmount Engine Company—so long noted for their bold and desperate conduct—proceeded to the Good Will hose house, near the Schuytkill, on Callowhill-street, broke into it, laid violent hands upon the schuytkill control of the Good Will hose to be conveyed the whole to members' equipments, apparatus, etc. conveyed the whole to the immediate vicinity of one of their grogeries, at the inter-section of Broad-street and Turner's-lane, and deliberately burnt the carriage, hose, and all to ashes! This is another handed outrage, and calls for prompt action on the part of the civil authorities.

STOCK SALES .-- A very large business was done in Stocks to-day, and prices, in most instances were upward. There was a heavy demand for State Fives, and the sales reached full \$36,000 at the Board. Sales were made at the First Board at 65t, which jes decline of 1t since yesterday. Commercial Bank sold at \$5 above par, and Camden and Ambov Railroad \$18. Vicksburg closed firm at 10t. Philadelphia 5's were in demand at 10t.

Raitroad Sts. Vicksolfg Close and Communication of the Second Board the sales were, 50 shares Vicksburg 10; \$4060 City 5s, 1859, 166; \$1000 County 5s, 1860, old, 99; \$1000 State 5s, 66i; \$2000ido do b 5, flat, 66i; \$300 do do R W, 66; \$1000 do do b 5, flat, 65i; 59 shares Wilmington Railroad 17i; 100 do do b 5, flat, 17i; 5 do Girard Bank 7i; 20 do Penn Township Bank 3i; \$998,08 State 6es, 69; 6 shares Camden and American Paileond 15.

In Money Matters, there is but little change. The deposites in our Banks continue unasually large, and loans are freely made upon good paper at 4 a 5 per cent, per annum. The rates of Exchangeshow no material variation for several weeks past, New York and Boston being quoted at par a 4

weeks past. New York and Boston being quoted at par a q discount.

The Commercial prosperity of Philadelphia was never more flattering, and the business now going forward along our wharves, in Market, Front and other streets, is almost unprecedented. The new buildings in the course of erection in various sections of the city and districts, coupled with other important matters, all tend to give joy and satisfaction to our citizens, who fully appreciate the blessing of a Protective Tariff.

To Shave Fasy.—A celebrated writer has defined man to be a shaving animal. This is doubtless true so far as relates to civilized man, but a civilized man cannot shave without a razor, and he cantot keep his razor in good order without a strop. We would therefore just gently hint to our readers that Sanuders' Patent Metallic Tablet Razor Strop, with four sides, has withstood the test of time; it having been before the public more than a quarter of a century, and it probably has no superior in giving that desirable keen edge to a good intervaluation of the public more than a quarter of a century, and it probably has no superior in giving that desirable keen edge to a good intervaluation.—[Boston Mercantile Journal mh27 3teod

As to the charge against Justice Stevens, the Commit tee recommended that it be dismissed, which was according done Respecting Justice Gilbert, the Committee notice Question, all sorts of attempts were made by the the facts connected with the statements of Mr. McGowan, &c. Motions were made to lay the report on the table-uls to refer back-and another directing the District Attorney t prefer articles of impeachment, &c. The latter was put by the presiding Judge and carried by a small majority, some of the members being desirous that the complaint should undergo farther investigation .- The Court then adjourned.

VICE-CHANCELLOR'S COURT.....Before Vice-Chancellor McCoun. DECISIONS.

David Leavitt, Receiver of the North American Trust and Banking Co. vs. Messrs. Yates, Talmage and Noyes, Trustees, and others -Application to set aside : Trust made to defendants by Directors of the Company, is which a large amount of assets belonging to the Bank were placed in their hands to secure the payment of 800 bonds for \$600,000, issued by the Company at 13 months after date-also for the appointment of a Receiver to take possession of the Trust property on behalf of the general creditors and stockholders of the bank.

The Vice-Chancellor, in rendering a decision, expressed as opinion that the Bonds had been issued without power for such being vested in the directors-that although the banks under the general banking law, can issue evidences of debt they must be connected with the legitimate business of the bank, and not given out for the purpose of speculation; it being proper that stockholdera should be protected. Where innocent purchasers have given value for the bonds, they will probably be allowed to come in as general creditors-and thos who have given up other securities and taken these bonds in payment of a debt, will probably be permitted to regain their original positions. With these exceptions the Bonds must b considered as void, and the Trust, consequently, unnecessary As the various claims, however, must be submitted to a Mad ter in Chancery to take proofs, the opinion is not to be considered definite except as to the general points. Injunction to restrain the Trustees from acting under the Trust, granted also the appointment of a Receiver allowed, &c. [The application in relation to the other and similar Trusts of the Com pany were not passed upon-the Vice-Chancellor stating tha he was not yet prepared.]

POLICE OFFICE.

LARCENIES .- Harriet L. Cevats was arrested and committed for stealing \$7 from the pocket of George Snediker, of No. 280 Hudson street, when in a house E. Stewart was arrested and committed for

stealing 4 pounds of verdigris from the store of Mr. Badger, No. 191 South street.

SEVENTEEN RODS OF SNAKES .- The Norwich Courier says that while two persons were engaged in digging a grave in that vicinity on the 15th inst. they found a burrow about two and a half feet below the surface, from which they extracted sixty-three black snakes, which were from three to five feet and ten inches in length and in rather a torpid state, so that they soon decapitated them all. These snakes would probably average four feet each, and were they placed in a line, would extend 2834 feet, or more than 17 rods in length.

Sands's Sarsaparilla. —In the science of Medicine, like that of Legislation it is far more easy to point out what will do haim than what will do good. The human body is more readily injured and disordered than the body politic, and bad medicines are at least as mischievous as unwise laws. A careful study of the pathology of disease and a thorough knowledge of the peculiar properties and effects of medicinal substances can alone enable the practitioner to assign, adapt and proportion the remedy to the disorder. The tonic and alterative qualities of Sarsaparilla, its purifying and restorative inflience, were until within a few years comparatively unknown, merely because there was no preparation of this invaluable root, which contained the quintessones of its sanative properties. It is be ieved that in SANDS'S SARSAPANILLA this great object has been thoroughly attained—and the sitestation of the fact is to be found in the multitude of cures it has effected. Cases of Sectolal considered hope less. Kheumatism Suppuration of the Glauds. King's Evil, less. Chematism Suppuration of the use of this medicine.
